MICWIC 2017 Call for Submissions

The 6th Biennial Michigan Celebration of Women in Computing (MICWIC 2017) will be held on the Michigan State University campus this spring. On Friday March 31 and Saturday April 1, students, faculty, and professionals with interests in advancing the fields of computing and information technology through broadening diversity will convene for presentations, panel discussions, a poster session, and career exploration. A Career Fair on April 1 will feature both regional and national companies and many Michigan colleges and universities.

We invite you to help shape the MICWIC 2017 program through submission to one or more of our tracks for professional engagement. Organizers welcome submission of Papers and Posters from students, and of Lightning Talks and Birds-of-Feather (BOF) sessions from everyone on any topic in computer science or information technology, including societal and ethical issues.

Submissions will be lightly reviewed for content and suitability. MICWIC does not produce a proceedings; presenting a paper or poster at MICWIC does not preclude later publication of the work in an archival venue.

Top student submissions in the Presentation and Poster tracks will be awarded scholarships of up to $1500 toward costs of attending the 2017 Grace Hopper Celebration of Women in Computing.

See the conference website (http://www.micwic.org/) for guidelines in all submission categories.

Important Submission Dates

	Jan 31, 2017	Early Submission Ends*
March 1	~~Feb 15, 2017~~	Final Submission Ends
March 8	~~Feb 22, 2017~~	Notification of Acceptance
	* Submit early to be eligible for cash prizes.	

Association for Computing Machinery
MICWIC is an ACM Celebration

Pledges to sponsor and participate in the Career Fair accepted until Feb 26, 2017 space permitting.

Mark your calendars and join us to make MICWIC 2017 one for the record books!
